

Map 2.1 Colonial Wars of North America

To find the maps you need to copy from open the **Colonial War Interactive Timeline**. There are four links on the left of the timeline. These links take you to the individual colonial wars. For each colonial war you will notice links on the right-hand side of the presentation. Click the heading **Map** to view each corresponding colonial war. Copy the maps *exactly* as you see them. The maps should be colored.
