

Before viewing a section of the video, read the relevant questions from the worksheet so you know what you're looking for. Then watch the video. The questions are broken up into sections (reflecting titles inside the documentary itself). Answer *all* of the questions.¹ **All written answers should be a minimum 25 words in length (except for question 2). There is no maximum when it comes to length. Do not be fooled by the minimum answer length, i.e. some questions will require answers in the 100 word range in order to be complete. Use your judgement.**

Marks are lost by:

- Making errors in historical accuracy, logic or chronology
- Written answers that fail to meet the minimum standard in terms of length
- Excessively poor grammar and spelling will be penalized (so edit and proof read your work)
- Failing to cite websites if they are used to help students answer questions
- Plagiarizing someone else's work and claiming it as your own
- Failing to meet complete this assignment by deadline
- Not following directions, e.g. incorporate your answers to this viewing guide into the midterm *Google Doc* and/or organizing answers according to the headings and question numbers

Note: you might be able to *Google* answers to questions. If you do answer a specific question using a browser, please include the URL where you found the information.
